

A TRUE F2P2E EXPERIENCE  
BE PART OF THE NEXT-GEN BLOCKCHAIN GAMES

## DESCRIPTION

WarQube is a cooperative 3D video game based on blockchain technology in a mix of Tower Defense, Isometric Shooter and MOBA genres. The game includes three gaming modes: PvE, PvP, Raid. This makes the game diverse in terms of gameplay.

## KEY FEATURES

## BUSINESS MODELS

### F2P & P2E

The economy of the game is based on F2P & P2E models, which opens up the possibility of earning rewards in the game without big investments. As we are not focused only on making money, the F2P model will give all players the opportunity to get an NFT Avatar for free, which will allow to activate the P2E mode and earn. In-game tokens and NFT assets can be easily converted into fiat currencies.

### REWARDS

- Reward for winning in PvE, PvP, Raid
- Tournaments & Mission Rewards in P2E mode
- Trading and obtaining NFTs that can be sold
- Income from NFT's & Token staking
- Rare NFT items finding
- Rewards for helping the project team

## GAME MODES

### PvE

PvE mode is a protection of the human base from enemy races seeking the knowledge stored in the Cube. A team of players protect the base against the waves of enemies attacks. Victory is achieved if the team beats the final wave of enemies.

### PvP

PvP mode is a confrontation between different corporations of the human race who want to be the sole owners of the knowledge of an ancient civilization. The task of both teams is to protect their own base and destroy the enemy's base.

### Raid

Raid mode is a sortie by a group of 4 players. The main task is to clear a particular location from enemies and get a reward in a special NFT for winning the battle with the final boss. Each player has a limited time to return to the battle after being out of action.

## NFTS

## AVATARS

### STANDARD AVATAR

WarQube Standard Avatars have multiple appearance options and an unlimited number of copies. It gives its owner the right to activate the P2E mode in order to start earning money by playing WarQube.

### PREMIUM AVATAR

WarQube Premium Avatars are exclusive collections of NFT avatars of the game's main characters in limited quantities and four degrees of rarity: Common, Rare, Epic, Legendary. Premium Avatar gives the owners special benefits that no other NFTs will have.

## ENERGY CUBES

### Common

### Rare

### Epic

### Legendary

Charge level - 100    Charge level - 250    Charge level - 500    Charge level - 1000

Energy cubes allow users to play a certain number of sessions in Play-to-Earn mode. The players must charge the cube in order to maintain the duration of the highly profitable Play-to-Earn mode. This requires \$WQC tokens, which the player can receive as rewards for playing, or buy them for \$WQT.

## TOKENOMICS

WarQube uses a dual-token model with two types of tokens \$WQT and \$WQC.

### \$WQT

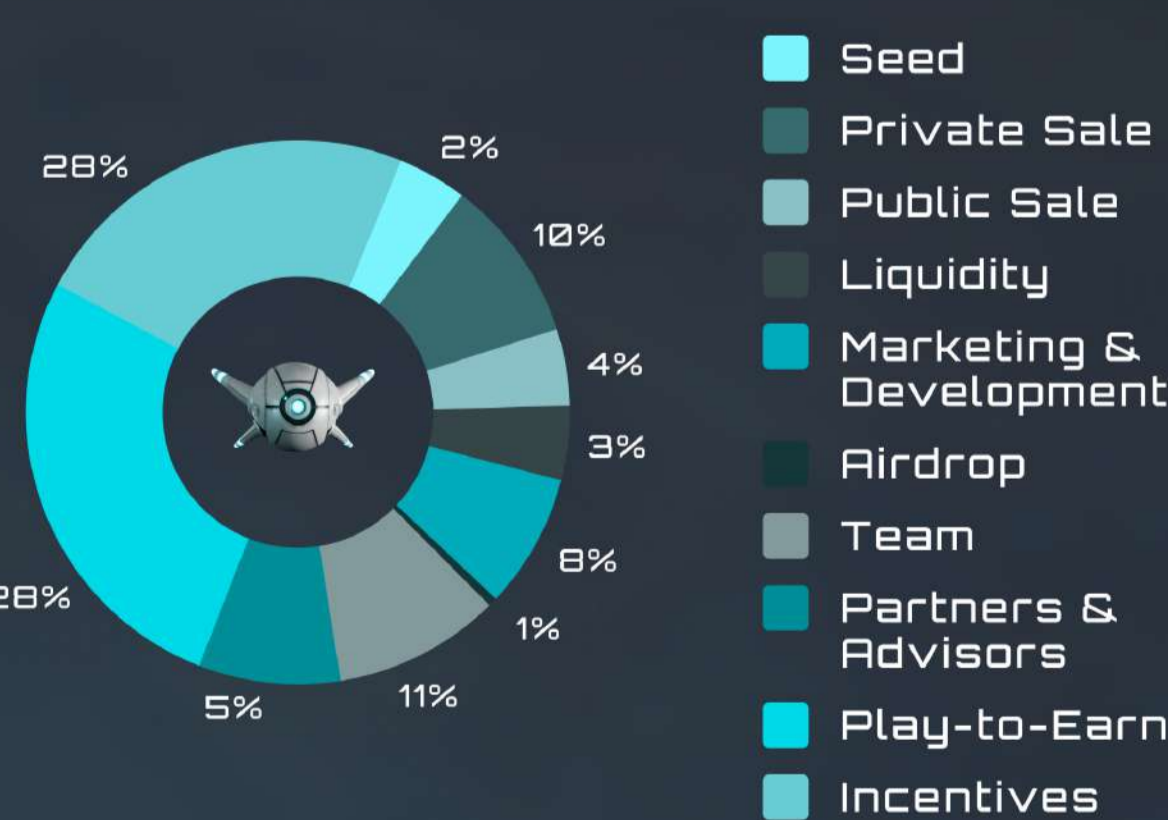

\$WQT is the main utility and governance token with a fixed supply of 1 000 000 000 that will be burned till the final supply of 100 000 000 tokens

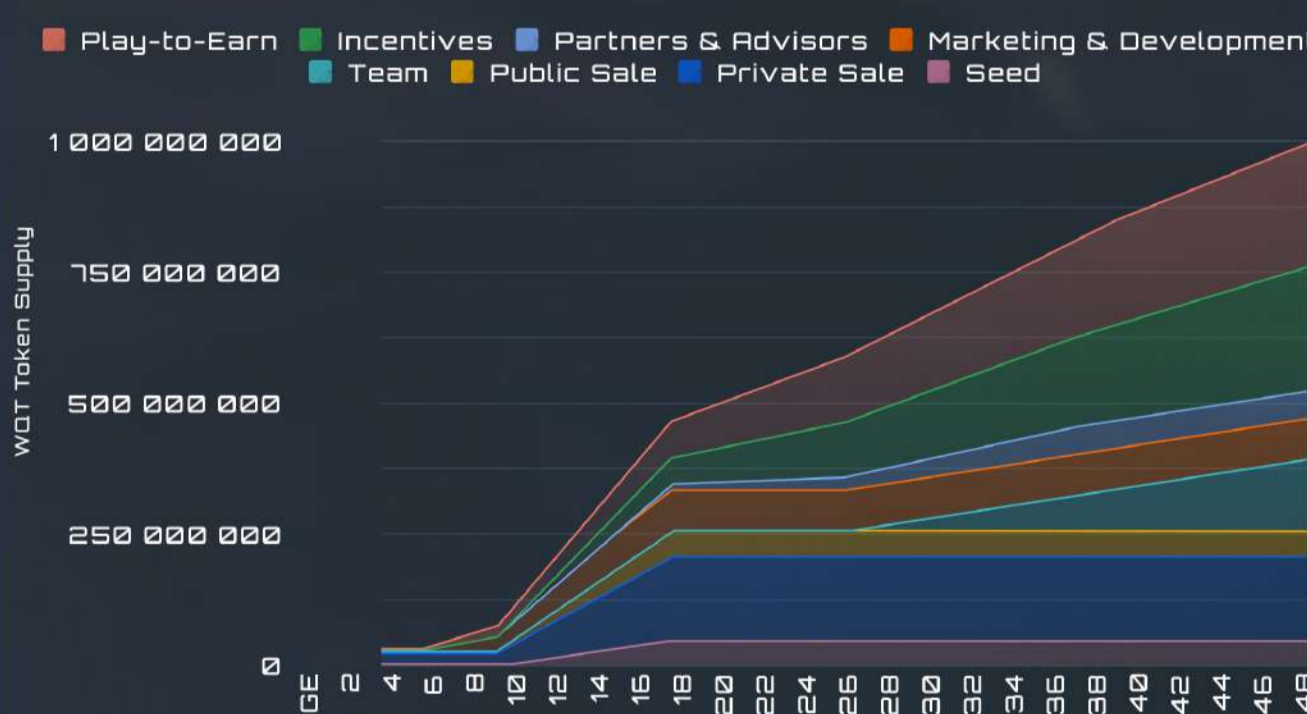

### \$WQC

\$WQC is an in-game reward coin with unlimited supply that will be issued and burned as needed.
